	Outreach Event: Pumpkin Drop	+ Pumplein Decoration
Date 2024 March 07		

Student Reflection

The pumptih drop was pre on dring my time as SPS suretary as a fundralser event. My fine responsibility, was to pre losether a mediate and QR codes that attendes, more we to replace and denante to. For this I used part of a personal wippings I had been worming on. Then I helped plan and run a decertify event for tids in the community. For this event I helped gather supplies and we, present throughout the day to melane fumilies and ensure nobody are the craft supplies. Finally, I was the pumption dropper and helped setup the robstop area with screety sear and the only important pumptins. All hall I deducted a majority of that weekens, not to mentar planning time all queries priors and felt very removable for the community temper. This event vaised good manay far the SPS also which was used for some end of year celebrations but mostly is saved for Sulfre also endeavors like Phys Con.

OFFICE USE ONLY Instructor please	Instructor please rate the student on the following areas:				
	Exceeds	Meets	Fails	Not
